

ABHISHEK TIWARI

Software Engineer — Full Stack & Mobile | Go · Flutter · React / Next.js · Node.js

+91-9789887109 | at1411413@gmail.com | [abhi15072004.github.io](https://github.com/abhi15072004) | github.com/abhi15072004 | linkedin.com/in/abhishek-tiwari-473312441

SUMMARY

Final-year B.Tech (AI & DS) student and full stack developer with **2 internships** and **4 freelance products live in production** for my own clients — an offline-first Flutter POS with cloud dashboard and licensing console, a food-delivery marketplace (Go) and business websites. Currently building multi-tenant SaaS platforms in Go for e-commerce and education. Works across backend, web, mobile, databases and CI/CD. **First Prize, NEURA '25 AI Hackathon**. Seeking a full-time **Software Engineer / Full Stack / Backend / Flutter** role.

TECHNICAL SKILLS

Languages	Go, TypeScript, JavaScript, Dart, Java, Python, SQL
Backend	Go (Gin), Node.js, Express, REST / OpenAPI, WebSockets, WebRTC, JWT / 2FA auth, multi-tenant SaaS
Frontend & Mobile	Flutter (Riverpod, Drift), React, Next.js, SolidJS, Electron, Tailwind CSS, HTML/CSS
Data & Cloud	PostgreSQL (Row-Level Security), MongoDB, SQLite, Redis, Docker, GitHub Actions CI, AWS, Vercel, Render
Integrations & AI	Razorpay, Stripe, Gemini / OpenAI APIs, OpenCV Go test, Vitest, Playwright, Git, Agile

EXPERIENCE

Freelance Full Stack Developer — Self-employed 2026 – Present

- Found and managed my own clients end-to-end — requirements, scope, design, development, deployment and post-launch support.
- Delivered **4 products now live**: RidgePoS (POS + cloud dashboard + licensing console), Ridgeserve (**tryfoodway.com**), and client websites **touchonled.com** (Next.js, TypeScript) and **gemsprofino.com** (loan pages, EMI calculator, lead forms, SEO).

Full Stack Developer Intern — Foretek Solution and Services Pvt. Ltd. Jul 2026 – Sep 2026

- On-site in Greater Noida: built and maintained full stack web features — frontend UI, REST APIs and database integration — delivering assigned modules through code review and Git workflow.

Java Full Stack Development Intern — InternPro Jun 2025 – Jul 2025

- Built and maintained Java full-stack modules for internal IT operations and workflow automation; troubleshoot issues in Agile sprints. Awarded a **Letter of Recommendation**.

PROJECTS

RidgePoS — Offline-First Point of Sale | Flutter, Dart, Riverpod, Drift/SQLite, Go, TypeScript **Live: ridgeposclient.foreteksolution.in**

- Desktop POS (Windows/Linux/Android) for restaurants and retail that keeps trading **fully offline**: orders, tables, Kitchen Display System, modifiers, tax, loyalty, inventory and end-of-day reconciliation.
- Role-based staff login (password + PIN), thermal/A4 receipt template engine, PDF/CSV reports and a secure **OTA auto-update** with checksum verification and rollback.
- Cloud side: **owner web dashboard** for live takings and sales history, plus a **licensing & fleet control panel** for all stores.

Ridgeserve — Food Delivery Marketplace | Go, SolidJS, PostgreSQL, Docker **Live: tryfoodway.com**

- DoorDash-style multi-tenant platform for customers, restaurants, drivers and admins: **150+ API endpoints**, live driver GPS tracking and ETAs, dispatch engine, 6 payment options and **395+ automated tests**.

EcomHub — Multi-Tenant E-Commerce SaaS | Go, Next.js, TypeScript, PostgreSQL, Razorpay **In progress**

- Shopify-style platform: one **multi-tenant Go backend** with a plugin registry gives every shop its own storefront, admin panel and domain (500+ commits).
- Built the money path — server-side pricing and **GST**, idempotent checkout, stock reservations, Razorpay payments, refunds, multi-seller marketplace — with Playwright tests.

Pathshala — White-Label Learning Platform | Go, Flutter, Next.js, PostgreSQL, Redis **In progress**

- One multi-tenant Go API serving every coaching institute with its own branded Flutter app and web portal (live classes, test series, notes, payments); OpenAPI contract, Docker, **GitHub Actions CI**.

AbhiDesk — Remote Desktop App (AnyDesk-style) | Go, TypeScript, React, Electron, WebRTC

- Encrypted peer-to-peer screen streaming over **WebRTC** with Go WebSocket signaling, embedded STUN/TURN, remote control, clipboard sync, file transfer and auto-reconnect.

Also built: SABAS real-time college bus tracking (MERN, Socket.io, React Native) · School/College ERP (Go, PostgreSQL RLS) · AI Placement Prep Tracker (Flutter, Node, Gemini) · Face Recognition Attendance (Python, OpenCV, 95% accuracy).

EDUCATION

B.Tech — Artificial Intelligence and Data Science 2023 – 2027 (Expected)

Misrimal Navajee Munoth Jain Engineering College (Anna University), Chennai

CGPA: 8.0 / 10

ACHIEVEMENTS & CERTIFICATIONS

- First Prize — NEURA '25 AI Hackathon** (AI for Global Innovation), “Next-Gen Automation & Productivity”, Oct 2025.
- Certifications:** Java (NPTEL, IIT Madras) · EBPL (IBM & Naan Mudhalvan) · Front-End Dev (Meta) · UX Design & Python (Google) · GUVI Full Stack
